# Our vision...

Increased smartphone usage due to accessibility, particularly thanks to Jio, is influencing both adults and children. Studies indicate a decline in attendance at religious institutions, partly attributed to shifting priorities and reduced interest.

Children are growing up with smartphones, leading to the formation of habits, such as using them to soothe cries or tantrums.

This cycle of smartphone reliance perpetuates, leading to a decrease in real-world engagement across various domains.

Studies indicate a decline in attendance at religious institutions, partly attributed to shifting priorities and reduced interest. Many new parents lack awareness of their religious practices, making it challenging to pass on cultural knowledge to their children.

A generational knowledge gap emerges, hindering the effective transmission of cultural and religious information.

Consequently, there is a dwindling number of individuals possessing comprehensive cultural understanding, leading to blind adherence to traditions without deeper comprehension

4

# COURSE IS FOR?

If one wants to know what is written in our spiritual books and what our Gurus try to teach us

If one believes in their roots but still does not have an answer to many questions then this course is for you

If one is not able to get some word meaning and Hesitation ask about it because they will judge you.

If one is a student or working professional and they do not find time to deep dive into their cultural heritage and history of their roots.

In today's time most of us spend our time on screens and if one attempts to read they feel bored because of the way it is written and the lack of concentration can make it difficult for people to understand. They need someone to help them comprehend the content.
